NOA# 20 - 124.02

Many deck or porch awnings don't give you complete coverage, leaving some parts of your deck exposed to the sun. The Total Eclipse is the perfect awning if you have a large outdoor living space. With its extra long projection, it's ideal for commercial use too.

The Total Eclipse retractable awning is the best way to maximize your protection from the sun and the heat.

## SPECIAL FEATURES

**MOUNTING & FABRIC PROTECTION** ▶ The Total Eclipse can be ordered One of Three ways:

### 1. OPEN ROLLER

Fully exposed rolled up fabric referred to as an "Open Roller", is typically used for soffit mounting or when overhead protection is provided just above the unit.

Open Roller

### 2. PROTECTIVE HOOD

With a 14 1/4" deep protective hood for wall mounting when no overhead protection is present. The hood adds 1" to the overall unit length.

Protective Hood

### 3. ROOF MOUNT

When additional clearance is required, we recommend the protective hood in combination with our strong and sturdy 12" tall roof mount brackets.
